## WORK EXPERIENCE

### Walmart

Jun 2022 — Aug 2022

#### Software Development Engineer III Intern

Worked in the Enterprise Business Services team to enhance the website providing services to internal employees. Worked on the frontend made using ReactJS to migrate assets from local codebase to cloud and used file streaming to fetch the assets to improve website loading time.

### OYO

Aug 2020 — Jun 2021

#### Software Development Engineer

Revamped existing end-to-end user onboarding workflow for Belvilla.com, a European hospitality brand with around 40,000 hotels. Implemented new features such as automatic onboarding E-mail flow, appointment scheduling for verbal assistance which led to significant increase in lead generation. Collaborated with Product managers to attain user feedback and implement suggested changes using Figma prototypes.

Technologies used in pre-existing and new workflow: Vanilla JS, Twig, CSS3, PHP, SQL, ReactJS, SCSS, Node.JS

### Freelance

Jul 2021 — Aug 2021

#### Blockchain Developer

Worked for 1 month as a freelance blockchain developer. Designed custom NFTs and executed a Token Swap operation.

### OYO

Jan 2020 — Jul 2020

#### Software Development Intern

Functioned as a web developer in the OYO Vacation Homes team with languages like PHP, JavaScript, Twig, Less.

### Deloitte Touche Tohmatsu LLP

May 2019 — July 2019

#### Summer Intern

Worked on two projects in the Assurance parallel of the Risk Advisory department. Built a web scraper using Python.

## EDUCATION

### New York University

GPA: 3.44

Master of Science (MS) in Computer Engineering

September 2021 — May 2023

### Manipal Institute of Technology

Bachelor of Science (BS) in Information Technology.

August 2016 — May 2020

## PROJECTS

### DonorBox

Created a prototypal version of a decentralized crowdfunding platform using Solidity smart contracts, NodeJS and ReactJS. Presented the same at EthGlobal's DeFi hackathon HackMoney.

Demo - <https://showcase.ethglobal.com/hackmoney/donorbox>
